Beautiful

Dark hair

Green eyes

Looking back at me

That smile

Those words

Brightens up my day

You're beautiful

So beautiful

Beautiful

That's what you are

Our eyes meet

In the street

When you walk on by

Please call

That's all

That I have to say

Chorus

Outro to end

Funny Girl

Oh you are a funny girl

You spin my head around

A daydream believer

Head up in the clouds

I don't care what you say

Or what you do

My heart's yours

My heart belongs to you

Whistle solo

Oh you are a funny boy

You spin my head around

Rocket powered whirlwind

A million miles an hour

I don't care what you say

Or what you do

My heart's yours

My heart belongs to you

My heart belongs to you (repeat to end)

99% Stardust

I love to see you smile

Warms me like the sun

We're just two sunbeams in a dark grey sky

And like the western wind, just passing by

Two lonely moonbeams in the dead of night

We're 99% stardust you and I

I love to hear you sing

Makes my heart miss beats

We're just two sunbeams in a dark grey sky

And like the western wind, just passing by

Two lonely moonbeams in the dead of night

We're 99% stardust you and I

We're just two sunbeams in a dark grey sky

And like the western wind, just passing by

Two lonely moonbeams in the dead of night

We're 99% stardust you and I

99% stardust you and I

(Music to end)

Stargazing

Constellations all around

Shooting stars

And comet tails

Scarlet red

And cobalt blue

All these stars they shine for you

How I wish you were here

I'm so far away from home

Wishing you were here right now

Astral charts

And great unknowns

Mathematics

And physics pose

Distant moons

And satellites

All revolve round you tonight

How I wish you were here

We're so far away from home

Wishing you were here right now

How I wish you were here

We're so far away from home

Wishing you were here right now

Wishing you were by my side

(Music expires to end)

Rothbury Raindrops

Dark skies frown

Overhead this green and sleepy town

First the rainclouds call

Then the raindrops fall

Rothbury raindrops falling down

Oh so grey

Will the sunbeams ever make it this way

First the rainclouds call

Then the raindrops fall

Rothbury raindrops falling down

First the rainclouds call

Then the raindrops fall

Rothbury raindrops falling down

 (Music to end on two harmonic notes)

Friends Again

She has a smoke
And she has a drink
Suitcase by her side
She's leaving town today

Tickets bought
She boards the bus
To so far away
But saying one word
They'd be friends again

She always thought
She knew him well
Since so long ago
But how those times have changed

Photographs and picture frames
Just gather dust
But saying one word, one word
They'd be friends again

She has a smoke
And she has a drink
Suitcase by her side
She's leaving town today
Tickets bought
She takes her train
To so far away
But saying one word, one word
They'd be friends again (Repeat to end)

Golden Slumbers

As the evening falls
Sunlight begins to fade
And shadows cast their spells
On all around

Will you take my hand
Throw caution to the wind
As golden slumbers
Fall on all around

Silver stardust fills my eyes
Lonely dreams meander by

As the evening falls
Sunlight begins to fade
We'll watch golden slumbers
Fall on all around
Golden slumbers, fall on all around
Golden slumbers
Fall on all around (Repeat to end)

Unrecorded/work in progress songs...

Goodbye Joe (Monochrome set cover)

Walking to the big screen
Oh, and he looks so good in Technicolor
Kissing him in your dreams
Oh, and, you know, Paul Newman's that much duller
Than him; and you know it's true
It's a sin when he sees you

Goodbye, goodbye, goodbye (Chorus)

Watching him from the back row
Oh, and in bed he looks so wonderful
Sucking chocolate in Pepsi flow
Oh, and all the party girls, they drool
For him; and you know it's right
When he wins the one in the light

Coming close to the big times
Oh, and he sounds so good in stereo
Italian name on a long sign
Oh, and all the Greta Garbos know
That it's good, when he's touching the shy
As he should, when he's making your life

Coming close to the big times
Oh, and he sounds so good in stereo
Italian name on a long sign
Oh, and all the Greta Garbos know
That it's good, when he's touching the shy
As he should, when he's making your life

Love is blind

I am a man of humble means
You're a girl with big, big dreams
Strange how opposites attract

You pay your money and you make your choice
Make your ? and choose your ?
And try to work things out

Ooo-oo-oo
You tell me your love was blind
Ooo-oo-oo
Just closed my eyes and tried

Ups and downs and ???
Absence ???
And try to work things out

Ooo-oo-oo
You told me love was love was blind
Ooo-oo-oo
Just close your eyes and try

I am a man of humble means
You're a girl with big big dreams
Strange how opposites attract
That opposites attract
So pleased that opposites attract

(Musical outro)

There will be rain

There may be joy

Laughter and smiles

Sunshine above

There will be rain

Friendships long

Memories made

Hearts may be lost

There will be rain

For every North

There is a South

For every heart

There is a love

For every love must rise and fall

So there will be rain

So live your best lives

Sing your best songs

Dream your big dreams

For there will be rain

There will be rain

(Musical outro)

This bird has flown

One day

Not far away

You'll turn and I'm gone

This bird it has flown

You'll find

The change of mind

I've turned and moved on

This bird it has flown

Leaves fall

Wind blows

Your summer has gone

This bird it has flown

This bird it has flown

Whistling interlude into outro
